In the Claims :

Please amend the claims without prejudice as follows:

--1. (Amended) [Interactive] An interactive system comprising:

(a) [at least] one [active] surface of a plastic material from monomers containing at least one structural element (A) derived from a carboxylic acid, [and]

(b) [at least one substance coupled to] a linker with at least one structural element (B) capable of establishing a hydrogen bond, and

(c) a substance coupled to the linker, wherein a stable interaction exists between the surface and the linker which comprises hydrogen bonds and which cannot be reversed by pH values in the range of from 2 to 13 or temperatures up to 60°C [the interaction taking place between the structural elements (A) and (B)].--
